Birdseye View of Our Greenhouses

This Great Institution At The Service of Seed Buyers

E have taken this space that could be filled with special seed offers, to show you that you get something more for your money than just seed, when ordering Salzer's seeds.

What you receive in every package, ounce or bushel of seed ordered from John A. Salzer

Seed Company, besides the exact quantity of seed needed, is an unexcelled quality, which means that your work in planting and cultivating will produce a bumper crop of prize-winning vegetables and flowers.

Such quality is the basis of our growth from a tiny shed and plot of ground in 1868 to the immense buildings and the vast acres of Cliffwood Farms shown on this page. Quality has been the watch-word of three generations of seedsmen. It is quality that can be produced only in Northern Grown seed, thoroughly cleaned by the most modern of machinery, tested and retested by three different methods.

The pictures on the left showing a few interiors of our different departments, are a convincing demonstration of the care taken to give prompt service and to assure the highest quality of seed to our hundreds of thousands of customers.

We take this precaution and have invested this immense sum of money in buildings, machinery and land, for only one reason—it pays to maintain the Salzer standard of Quality. You know it would have been impossible for us to hold our customers—some of them have ordered Salzer's seeds for fifty years—to gain thousands of new customers every year, through the recommendation and introduction of our old customers, and to grow to be the largest mail order seed house, if we did not give better quality, better value and better service.

We want your seed orders, whether you buy for a small garden, a truck garden or a farm. On the inside we have listed, described and priced the flower, vegetable and field seeds that we have found best through actual experience. These are the cream of our catalog and are placed in this special introductory and advertising offer to convince you that Salzer's Seeds are not only the highest in quality but also the best values, the biggest dollar's worth that your money can buy.

As you look over the other pages and compare the offerings made with any others, remember that Salzer's Seeds are backed by a reputation for quality of fifty-seven years' standing, by an immense investment in buildings and equipment, by the experience of hundreds of thousands of steady customers in every corner of America.

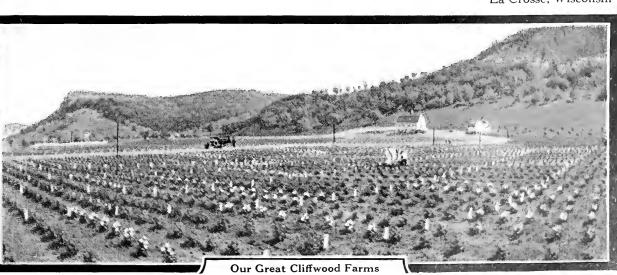

When you "Sow Salzer's Seeds" you will realize what quality seeds mean.

SALZER'S Famous Field Seeds

SALZER'S GOLDEN JEWEL CORN. Good seed corn is very short this year. Order early. Our Golden Jewel Corn is famous for its handsome, compact ears, which are 8 to 10 inches in length, with 16 to 20 rows of square shouldered, deep kernels. A percentage of the Golden Jewel has splashes of red on the tip end of the ear. In spite of its large ears, Golden Jewel matures in about 95 days and is therefore most suitable for the Northwest. Grows about 7 to 8 feet high and is very leafy. It is a mighty fine corn for southern Minnesota, South Dakota, Iowa and Illinois. Our seed is 95% and better germination. Handpicked.

4368-Minnesota Grown: Lb., 30c, postpaid. Not prepaid: Peck, \$1.30; bu. (56 lbs.), \$4.50. Bag extra, 1 to 2 bu. jute, 25c.

SALZER'S IMPROVED MURDOCK CORN. The heaviest yielding extra early yellow dent corn. Matures in about 94 days. Ears are a rich golden vellow, 9 inches long, 18 rowed. Kernels are very deep and large, slightly rough on the tips and without any tendency to flintiness. Stalks grow strong and leafy, 8 feet high, and make excellent fodder and silo corn. We recommend it for southern part of Wisconsin, Minnesota and South Dakota, and the northern counties in Iowa and Northeastern Nebraska. Our seed is 95% and better germination. Handpicked.

4389-Minnesota Grown: Lb., 30c, postpaid. Not prepaid: Peck, \$1.30; bu, (56 lbs.), \$4.50. Bag extra, 1 to 2 bu, jute, 25c,

RUSTLER WHITE DENT CORN. Splendid for our Northwestern States. Matures in 95 days. Stalks are 7 feet high, ears large, 14 to 18 rowed, and closely filled with large, deep, white kernels. Admirably adapted for the central part of South Dakota and Wisconsin and southern Minnesota. There is no better and more productive variety of White Corn grown in the Northwest, which is as early as Rustler White Dent. Handpicked.

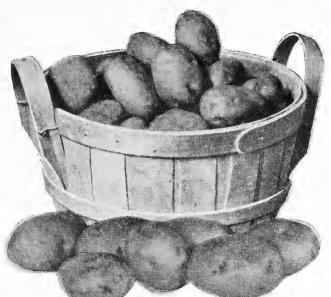

4399-Minnesota Grown: Lb., 30c, postpaid. Not prepaid: Peck, \$1.30; bu. (56 lbs.), \$4.50. Bag extra, 1 to 2 bu. jute, 25c.

MINNESOTA WHITE DENT CORN. Earliest pure white dent corn, maturing in 75 to 85 days and splendidly adapted for North Dakota, northern South Dakota, Minnesota and Wisconsin. Should be planted on poor and thin soils and also on cold and wet ground, where it will thrive when other corns fail. Ears are usually 8 inches long and packed with long, deep kernels. Under fair conditions, yields of 75 bushels and over, per acre, have been reported. Handpicked.

4394-Minnesota Grown: Lb., 30c, postpaid. Not prepaid: Peck, \$1.45; bu. (56 lbs.), \$5.00. Bag extra 1 to 2 bu. jute, 25c. Write for prices on the above varieties in larger quantities.
